Abbreviations xiii

- 1 On Being Diagnosed 1
- 2 How Serious Is Your Cancer? 11
  - What Is Your PSA?* 12
  - Is Your Cancer Palpable?* 15
  - What Is Your Gleason Score?* 18
  - Additional Predictors of Severity* 24
- 3 Surgical Treatment 27
  - Who Are Good Candidates?* 28
  - The Procedure* 29
  - Complications* 39
  - Outcome* 42
- 4 Radiation Treatment 46
  - Who Are Good Candidates?* 48
  - The Procedure* 51
    - Seed Therapy 51
    - Beam Radiation 54
  - Complications* 55
  - Outcome* 59

- 5** Hormone Treatment 67
  - Who Are Good Candidates?* 68
  - The Procedure* 69
  - Complications* 72
  - Outcome* 76
  
- 6** Cryotherapy 78
  - Who Are Good Candidates?* 78
  - The Procedure* 79
  - Complications* 79
  - Outcome* 80
  
- 7** Alternative and Experimental Therapies 81
  - Herbal Therapies* 82
  - PC-SPES: A Cautionary Tale* 85
  - Experimental Treatments* 87
  
- 8** Treatment Decisions 89
  - Watchful Waiting* 90
  - Ten Factors to Consider* 95
  - Advantages and Disadvantages of Treatment Options* 110
  - How I Made My Decisions* 115
  
- 9** Your Support System 118
  - Yourself* 118
  - Family and Friends* 124
  - Coworkers and Business Colleagues* 128
  - Support Groups* 130
  
- 10** Major Complications and Their Treatment 132
  - Urinary Incontinence: The Problem* 133
  - Urinary Incontinence: The Solutions* 135
  - Impotence: The Problem* 140
  - Impotence: The Solutions* 144

- 11 What Happens if the Cancer Spreads or Comes Back? 152**  
*Will It Kill Me, and if So, When?* 153  
*Treatment Options for Recurrent Cancer* 159  
*Weighing Quantity versus Quality of Life* 164
- 12 What Is Known About the Causes? 169**  
*Clues* 169  
*Genes* 175  
*Viruses and Other Infectious Agents* 177  
*Sexual Activity* 178  
*Hormones* 180  
*Dietary Factors* 181  
*Other Possibilities* 183  
*Summary of Causes* 185
- 13 Factors That May Prevent Emergence or Recurrence 187**  
*Dietary Factors* 188  
*Vitamins and Minerals* 194  
*Medications* 195  
*Lifestyle Changes* 197  
*So What Should You Do?* 198
- 14 Science and Politics 199**  
*The National Cancer Institute* 200  
*The Prostate Cancer Research Program* 201  
*Michael Milken's Prostate Cancer Foundation* 202  
*The National Prostate Cancer Coalition* 204  
*Other Players* 205
- 15 Advice for Men Who Do Not Have Prostate Cancer 208**  
*Should I Be Tested?* 208  
*Biopsies* 212  
*Ten Recommendations* 214  
*Future Research* 216

Appendix A The Anatomy and Function of the Prostate Gland	219
Appendix B Evaluation of Books About Prostate Cancer	224
Appendix C Useful Websites on Prostate Cancer	235
Notes	241
Index	267
